U/13: Melpark 10 - 4 IR Griffiths

MATHS OLYMPIAD

S. Sibanda

The Maths Olympiad participation helps learners develop strong problem-solving skills and can open doors for future careers and global recognition. This week, 7 learners from Grade 4-6 took part in the Maths Olympiad at Everest Primary.

Well Done to our future scientists and engineers.

SPEECH & POETRY EVENING

R. Kannemeyer

On Wednesday, 14 May 2025, we hosted our annual Speech and Poetry Evening. The event highlights and showcases learners from Grade 1-7, who display exceptional speaking and writing skills. Each participant had to endure a vigorous process of speech writing, editing, and endless practice and recall.

Needless to say, the event was exceptional, and each participant displayed immaculate skills. Topics such as scary teachers, the effects of social media on one's mental health, and even the importance of family and friends were discussed on the evening.

A big congratulations should be given to Ms Ismail and the Language Department, as well as to each and every participant who graced us with their talent on the evening.

Next year, we look forward to seeing you all and hearing what new topics are affecting the learners of this generation.

REMINDERS

Learners in Grade 4-7 have received the June cycle test timetables, and studying should be underway.

Please don't forget to send through the items for the TEA GARDEN.
